

International Business Transactions: A Problem-oriented Course: 2006 Document Supplement

Designed to accompany Wests coursebook, International Business Transactions, this supplement reflects the latest changes in international statutory law. Among those included: enactment and United States implementation of the North American Free Trade Agreement (NAFTA) and the Uruguay Round of the General Agreement on Tariffs and Trade (GATT). The materials are edited to provide those portions of each law necessary to understand the nature of the organization or law, or which are applicable to resolving problems. Glossaries define trade acronyms, trade organizations, and terms.
