

Heir of the King

King Martin has a heart big enough to love men and women. Unfortunately, that's not enough to save him from the traitorous General Thelan. With rebels literally smashing their way into the castle, he makes a passionate farewell to his manservant. Once imprisoned in his own dungeon and chained to the wall awaiting execution, he has two beautiful female visitors. The King has no children, and some of his loyal followers do what they have to do to make sure there is someone to carry on his name. Can his last desperate act of passion be carried out in time? Set in a medieval age, this adult story has a bisexual main character, a touch of woman-on-woman action, erotic choking, and bondage.
