

PIRATE PATROL: Mark Ferguson

The worlds largest oil tanker is under military protection when it is attacked by Somali pirates in the Indian Ocean. In the days following the hijacking questions are asked and a picture of a well-planned attack starts to emerge but for one man something doesnt make sense and he plans to get to the bottom of it. When he does he begins to think what he suspects cant possibly be true. But it is true and as the death toll starts to rise, a race to stop the escape of the real pirate begins. Will they catch him and how many people will die in the manhunt?
