

At the end of nowhere

On the one side, there is this young woman travelling the world, escaping from her daily, boring existence, trying to find the meaning of life by looking for her first love. On the other side there is Jade, who is still a student when she meets Nicolas. He is the perfect gentleman. But after a while, everything changes and Jade starts wondering if she will be strong enough to make this relationship work. It is not only story about relationships. It is also a beautiful journey around the world and a reflection about the meaning of life and dreams.
