

Back Door to the White House

A spring day dawns in Washington, D.C. and it is business as usual for the government as it wrestles with taxes, the economy and unrest around the world. All this is about to change in a matter of hours as murder, blackmail, and deception take center stage. Sam Davoran the FBI director carried over from the previous administration finds himself plunged into the center of a baffling investigation that gets more bizarre by the minute. Will he be able to find the answers before it is too late and he has a dead President on his hands added to the body count that is growing daily? The clock is ticking and with time running out Sam becomes the pursued instead of the pursuer, accused of a murder he did not commit. Will the real killer be caught and the plot exposed before a new and corrupt administration moves into the White House? Read this riveting political thriller and enjoy the wild roller coaster ride to the exciting conclusion.
