

The Woman Who Walked Into the Sea (The Sea Detective)

Cal McGill watches the young woman through the dirty windshield of his Toyota. There's something compelling about her stillness, about the length of time she has been standing, staring out to sea. What has brought her to this remote beach, he asks himself. Is she a kindred spirit who finds refuge by the shore? Idle curiosity soon turns into another investigation for oceanographer and loner McGill as he embarks on a quest to discover why, 26 years earlier, another young woman walked into these same waves. According to the police, she killed herself and her unborn baby. McGill, the Sea Detective, questions this version of events and confronts the jealousies, tensions, and threats of a coastal community determined to hold on to its secrets.

Douglas-Homes sophomore series entry for his oceanographer sleuth is simply intoxicating. The young protagonist has a romantic streak that complements his typical scientific method.--Library Journal Nov. 1, 2013 Douglas-Home has done a truly superb job of portraying both the Scottish Countryside and the memorable characters he populates it with.-I Love a Mystery
