

12 Books and None of Them Sold

12 Books and None of them Sold continues the story of John Kyle, former singer and guitarist of the seventies band, Mad Russian. The story picks up in 1983; John had just won a lawsuit against his former manager and record label and was awarded a \$3.5 million settlement. After deducting for lawyers, taxes and more taxes, John netted \$400,000, which he lived off of until that money ran out. He spent most of the 1980s alternating between heavy drinking and trying to reignite his solo career. He finally agreed to front a band called Short Notice, which was around and then gone in less than two years. They did some recordings, but the master tape was stolen. The songs on that tape wound up appearing on a record that was pressed in Europe and sold in excess of 150,000 copies, from which he received zero \$\$\$ in royalties. After the Short Notice fiasco, Johns older brother Eddie asked that he visit him. To Johns surprise, his older brother was a career soldier, the antithesis of the carefree, rebellious teen that he was before he was drafted. Johns (mis)adventures extended into the 1990s: a Mad Russian reunion, a series of half-assed temp jobs to pay the bills, his first solo release in twenty years and finally an unexpected payoff.
