

Conservative Beat-Downs: Rush L

Politics are rough and no one knows this better than Jacob Darney who has set himself on a one-man crusade to track down and punish the multitude of conservative pigs who spout their vile hatred all across America. Jacob Darneys crusade of righteousness will take him into the core of hatred that defines modern Conservatism. Darney has had enough! His first guest is conservative radio personality Rush L__. In this first episode of the series Conservative Beat-Downs we follow Darney as he tracks Rush to a Hooters bathroom in South Florida and commences to beat the living crap out of this vile mouth piece of disgust and disgrace. Jacob Darney has a way with words and demonstrates his technical dexterity with sentences such as I grabbed the disgusting sack of pig farts by his collar and yanked him off the toilet. Darneys use of Figurative Language is delightfully vivid and fresh: I cracked him again in his mouth. Blood splattered on the stalls walls, like when a ketchup packet suddenly explodes from too much pressure. And the pure disturbing imagery he lays out is refreshing in a nation of political correctness that fears to offend. Sentences like, Walking, he looked like a pile of jelly-shit who couldnt quite get its arm around its fat form to scratch its own asshole, are powerful reminders of what language can do. Conservative Beat-Downs will not disappoint. Feel the rage.
