

Exposure (Sapphire)

Sapphire is a series of high-quality erotic lesbian novels with a variety of themes and settings, ranging from contemporary urban landscapes to sexual role-play within a historical framework. Bringing a lively diversity to the lesbian erotica market, Sapphire books are sure to set your pulse racing! Celibacy is no fun. That's certainly the case for Alexandra, but when it comes to making a choice between sleeping with women or signing with one of the most bigoted but powerful agents in Britain, the gorgeous actress assumes her ambition is enough to dampen her sexual ardor. She doesn't bank on meeting Stephanie: how will Alex resolve the dilemma that their passionate, daring one-night stand has created?
