

Lands of Memory

Two novellas and four stories, never before translated into English, by the great and too little known Uruguayan master, Felisberto Hernández. *Lands of Memory* presents a half-dozen wonderful works by one of the greatest yet least-known South American writers of the twentieth century. Felisberto Hernández's extraordinary stories have been always greatly prized by other writers, and the two novellas and four stories collected in *Lands of Memory* show why. *Lands of Memory* and *In the Times of Clemente Colling* are two dreamlike novellas, which are carried along like pieces of otherworldly music by odd rhapsodic memories. Curiously haunting, the four stories also included in *Lands of Memory* turn upon small improbable events?small unpredictable, off-the-wall events which turn upside-down a first recital or a salesman's calling. These works have been long overdue for translation into English, and New Directions is pleased to have them in Esther Allen's stunning versions.
