

Yankee Doodles in Black Hats

The Satterfield twins, John and James, carry our story through the American Revolution. James conspires with George Mason and George Washington in the days that lead to Washington's selection as Commander in Chief of the rebelling colonial forces. Washington appoints James his political advisor and chief of intelligence. The English capture James during a visit to occupied New York to meet with informants, and John returns from the frontier to rescue his brother. John scouts for General John Sullivan in his march against the Iroquois. James unmasks Benedict Arnold. This is the breathtaking story of an American family in the American Revolution. Yankee Doodles in Black Hats is volume two of the Satterfield Saga, the dramatic story of America's youth and the men who made her great.
