

Joe Manning Lived Here

Joe Manning owned a good-size ranch outside of a small town in Virginia, and he was plowing one day close to his house. He was getting ready to plant a garden patch for the family to use for their livelihood. Three men came along the road. All three had sidearms and one man had a rifle. He shot Joe in the back while Joe was trying to get to the house to get his rifle and defend his family. Then they killed his wife and young daughter, burned the house down around them, and left Joe in his yard bleeding to death. Joe, who cared deeply about people, was the first person in the community to volunteer to help everyone who was in need. Joe, with his wife at one time or another, had entertained in their home all the people in the area. Who could have shot poor Joe Manning in the back twice and destroyed his family and house? What is going on around here? This has always been a nice area of the country. I wonder who is behind all this killing. Why would they kill his wife and daughter, and why would they have burned down his nice house? This is really a mystery. I wonder if Joe will survive. The doctor does not think so. I wonder what the sheriff is doing about it. He does not seem to have a clue. Will anyone else have to die before we find out who the culprits are?
