

The Last of the Old West

The West stubbornly resisted civilization. The woods, the rivers, the deserts, the mountains, and the Indian tribes and the vastness of it all almost baffled the first settlers. But the American pioneer, urged on by hunger for land and lured on by the spirit of adventure, finally by slow degrees bridged the rivers, bored the mountains, and made the desert blossom as a rose. The resistance of the West to civilization and the final victory of the pioneer make up a story more significant to civilization than any previous migration story of the race. It is nothing less than the story of the making of the United States of America.
