

Minding Fletcher

Cherry Morgan and Fletcher Alexander have been at odds with each other since they were children attending their older siblings wedding. Tragedy struck the family when Charles and Faith were killed when their buggy turned over, and bounty hunter Cherry and Marshal Fletcher both came home to take care of their five nieces and nephews. The towns gossips and busybodies are positive that Fletcher and Cherry couldn't possibly live in the same house without something immoral going on, and they agree to marry in order to keep the children all together. Fletcher is convinced that he can make the marriage work, provided he applies his hand to Cherry's cute bottom as often as possible!
