

## Peaches (Peaches N Cream Book 1)

Do not read this book if you are one to judge a book by its cover and need the assistance of a crew of publisher peons high on ayahuasca to guide you through each and every page...this is a journey best taken alone...take a chance on your esteemed intellect and follow a path you have not journeyed for decades if you are in the midst of your later decades...alternatively, see a glimpse of one of your possible futures if you have just opened your eyes at the beginning of your eighteenth year...life, it would seem, does not always find a way; at the end, life simply suckles life...
