

Petoskey Stones

World War II is finally over and womans role in society has undergone a drastic change. Delia Eloise Kingsley confronts a new marriage with a man she does not love, while her cousin, Della Weezy Ward, pursues a writing career and eschews marriage and family. Delias new husband, Bradley, treats her well-almost too well. She feels trapped. Delia wants an excuse to leave-even though it wont be easy-especially since her mother adores Bradley. Worse, Bradley is the ideal spouse, and Delia knows that trying to explain why she wants out of the marriage might prove impossible. But when Delia meets her dashing new folk dancing partner, she suddenly faces an unexpected choice. Weezy observes her cousins dilemma with dismay and makes her own choice, which is considered unthinkable. She avoids marriage and allows a man to become her patron in order to pursue her career. But this route harbors unseen pitfalls, as well. Her patron is Jewish, and even worse that, hes married and apparently is truly in love with his wife. Will Weezy and Delia be comfortable in their chosen roles, or will fate throw them on a different path?
