

Potato Queen

Potato Queen starts off in Manila, Philippines, where a young Juancho Chu is living vicariously through reruns of US television sitcoms and dreaming of a life in the less oppressive land of America. As a young man, Juancho makes his way to San Francisco to establish a life for himself in the United States. While working at a travel agency ironically selling tours to exotic locales like the Philippines, Juancho works toward his US citizenship. Its not long before he begins making friends and discovering the gay nightlife that San Francisco has to offer. Along comes Gerald, a white man who is attracted to Asian men a rice queen. Juancho finds that he is usually attracted to white men, thus dubbed a potato queen. Juancho and Gerald seem to be perfect for each other, but complications along the way include a variety of very willing Asian men and a surprisingly down-to-earth white porn star. Will Juancho and Gerald remain just friends? Will Juancho secure the US citizenship he has always dreamed of? Will he actually meet the porn star he used to watch on the big screen in dark movie houses?
