

Revenge Factor

Revenge Factor begins in 1945 as the United States attempts to end an assault by the Japanese Empire on its country. The story progresses to a time when the U.S. may be on the verge of a financial collapse. As the bombing of Hiroshima devastates a major city and its people, there is one who escapes death on that day to seek revenge almost fifty years later for the loss of his entire family. As he plots and plans his revenge, there are those in the United States who will reach deep inside themselves for the courage and strength to try and stop him. With many odds against them, it will quickly become quite evident few can be trusted and some will not survive.
