

Seekers and Evolutionaries

What would happen if Moses, Athena, Leonardo da Vinci and Quan Yin got together in the afterlife to discuss the world as it exists today? That is what you will discover in this fascinating novel that takes a look at each of their lives and those who helped shape them, as well as following some of their favorite people in today's world. Quan Yin is a fan of Alberta, whose life is characterized by a series of missteps with men and addictions but who is finally reunited with Dan, a best friend from her school years, who helps rescue her from an accident and reminds her of what's important in life. It turns out that Leonardo da Vinci has been observing Dan as he grows up influenced by Uncle Ike; Dan now uses those lessons learned with others. Athena monitors Mabel, who raised twelve children on limited resources with Ernie, who is coincidentally being scrutinized by Moses. Their influence extends beyond their children to their friends and grandchildren. My friend, Moses, is concerned that the human race is falling victim to beliefs that people are flawed and undeserving of a beautiful life.... Along with Leo and Athena, Moses and I have been observing your family and the couple you met in the park today. As you will discover, Moses had absolutely nothing to worry about.
