

The Tempest (Shakespeare in Performance MUP)

The Tempest - the last play Shakespeare wrote without a collaborator and the first included in the 1623 First Folio - occupies a unique place in cultural history. Probably no play of Shakespeares has been so subject to appropriations and adaptations, many of which have had a tremendous impact upon the plays subsequent performance history. From John Dryden and William Davenants Restoration adaptation to Julie Taymors 2010 film version, The Tempest has served as vehicle for each generations exploration of a range of questions: what is the relationship between nature and nurture? What are the roles played by art and education in the formation of human values? What are appropriate uses of personal and political power? Can we find a balance between our contradictory longings for revenge and reconciliation? And, perhaps the most difficult question, what makes us human? This study traces this complex dynamic through the plays 400-year history, drawing from promptbooks, reviews, playbills, actors memoirs, as well as interviews with contemporary actors and directors, to examine The Tempests role as a cultural mediator from its inception to the present.
