

A Fistful Of Euros (Alex Savage Book 2)

Alex Savage is an asset. He's been an asset all of his life, usually carrying out jobs for the British government. Jobs that they ultimately want to deny responsibility for. A former SAS corporal, and one-time operator for the Firm, Alex is now burnt out, jaded, with a whole truckload of baggage, and he doesn't care what he does or who he kills for money. For the last few years, Alex has branched out into the private sector, where the pay is more lucrative, and the risks are less. When Alex carries out the audacious assassination of a man in a French prison, it brings his skills to the attention of a Parisian gangster who wants him to execute the daughter of the director of the French security service. The gangster is prepared to pay a fistful of Euros for it. It all seems like an easy way to make money, until the French security service demand that he carry out a job for them at the same time. It's not the first time Alex has faced a conflict of interests. And even with his girlfriend planning a trip to see him, Alex begins to realize that there isn't much love in the city of Paris.
