

The Ajnir

A truce between Simkada and Valyna on the planet of Urshan Dai remains fragile and tense. Travelers rarely venture beyond their homeland cities for fear of ostracization and safety. War breaks out shortly after an incursion of Valynan soldiers into Simkadas territory, shattering the delicate peace between the two cities. Against this tense political backdrop, Nadan, with his friends, Ranum and Naria, who are all part of an ancient mystical order called the ajnir, travel across the planet in a quest to unravel the riddles of a strange apparition known as an uriel. In a faraway mystical city across the vast desert that encompasses most of Urshan Dai, the three companions learn a strange truth about the history of their planet.
