

# The Authentic Death of Hendry Jones (Western Literature Series)

Nowadays, I understand, the tourists come for miles to see Hendry Jones grave out on the Punta del Diablo and to debate whether his bones are there or not...A stark and violent depiction of one of Americas most alluring folk heroes, the mythical doomed gunslinger. Set on the majestic coast of Southern California, Doc Baker narrates his tale of the Kids capture, trial, escape and eventual murder. Written in spare and subtle prose, this is one of the great literary treatments of Americas obsession with the rule of the gun.
