

## Simon (From The Coda) (Volume 1)

A book based upon the shaky democracy in Britain in the 21st century. This book, that spans 40 years, follows the fight of one man against the vice like grip a new government holds Britain. Those who love Simon the most, describe him through the years, up to the point where he has all but lost his memory. The year is 2052, and the world has changed.
