Each of the men has a gift that can help stop the End. But it will not be a simple defence. There is a sixth defender... an elderly clairvoyant who will need to harness their power. The demons know this, but they must balance their need to destroy these humans with their need to abduct as much psychic energy as they can from them through fear. They send humanoid disciples to milk this precious dread from the six in order to tighten their stranglehold and speed their journey to Earth from the star Hamal. The six must gather, but the unique power of each must be fully developed beforehand. They are destined to fight for the survival of their species against a race of alien devils once revered as gods... but can they do it before the first demon lands to reclaim its Dread Empire on Earth? International award-winning, Progressive Horror writer Johnny S. Geddes returns to show that the end of the world might just be the
