

The Viewer: River of Consciousness (The Viewer Series Book 1)

Rachel McConnell knew she had a gift to see the unseen, hidden or lost items and places never before visited, but then, she thought everyone did. Her hippie father was entertained and amused by his talented child while they travelled from place to place in Oregon during her formative years. Rachel's psychic gift simply annoyed her mother. Finding it hard to fit in at college, Rachel tried hard to stay invisible. Everything changed the day she was challenged by her professor to prove her psychic skills in class. She had no idea how this singular event would draw unwanted fame and impact the lives of those whom she loved in this lifetime... and others.
