

The Carefree Thief

To help you decide if this is a book you would like to read I have published the 1st chapter online, free. You can find this at <http://rorygardinerbooks.com/home/> If you like this chapter you will enjoy the book. That's what I've been told. Take five minutes and find out. In writing this book I wanted something I would enjoy reading. Often the humour is infantile, irreverent and probably bordering on downright insulting. You, the reader, should think, I would've loved to have said that! However, common sense and decency prevented you.

In the ideal you will find something funny in every page. Maybe you won't be rolling on the floor laughing, but something that keeps you enjoying each and every moment. At the end you should feel it was a fun journey and you are keen for more.

If you buy or borrow this book please leave feedback, good or bad. I am planning on getting some printed editions and sending these to some random feedbackers.

Thanks About the Book: Danny is young, smart and cocksure. He also has a smart mouth. Everything is about entertaining himself and having fun, often at others' expense. While others work hard Danny doesn't. He steals for a living. Being a thief is his job. It's perfect as he can't ever fail and there are never any repercussions. Danny is a thief without victims or consequences. Danny doesn't do responsibility. He isn't tied to any place or person. Danny isn't loyal and he isn't considerate. Danny is unconcerned about his impact on others. Danny is carefree. It's about to change for Danny. His actions create consequences equivalent to discovering a girlfriend has an Adam's apple. It's a grim moment of realisation. Running scared Danny discovers stealing was too easy. He isn't prepared for the sharp edge of the real world. There are victims and they can fight back. As they hunt Danny they also hurt him. Danny finds being carefree is hard work. Danny

struggles with each new experience. He knows he is hopelessly out of his depth. He falls from one problem to another. As he struggles to stay a half step ahead Danny discovers he needs friends. He needs forgiveness. He needs help. Using his charm, easy style and his sharp wits Danny gains companions and trust. As Danny seeks help he eats a lot of humble pie on the way. Its a steep learning curve. When things start to get better there is another twist. Will Danny revert back to his old ways, or will Danny prove true change is possible? See the world through Dannys eyes. Laugh, cry and cringe as Danny uses his quick mind and mouth to navigate circumstances in unique ways. Follow the journey as Danny tries to survive long enough to repair the damage he caused.
