

The Ultimate Cure

Young Swiss scientist Martin Rieder is working hard on a dream project with his brilliant colleague, Tanya Karnov. A discovery that promises a breakthrough in cancer cure. But one crucial element is still missing: investors with deep pockets.

In the midst of their fundraising efforts to prepare for the first trials on humans, unexpected and troubling events start occurring in the laboratories. Are they the result of a lack of professionalism or is someone deliberately causing them?

Oscillating between maddening reality and nascent paranoia, Martin finds himself caught up in a situation in which everything appears to be getting out of hand.

Written as a psychological suspense story with a healthy dose of wit, *The Ultimate Cure* depicts one mans dramatic against-the-clock struggle with the uncontrollable elements of life and the innermost foundations of his own beliefs.
