

Watching Over Me

This story is based on a true story of a grandmother living a nightmare of deception, abuse and danger, entering a world she would rather never have experienced to save her grandson. I hope that this story of pain and struggle can help someone else find the strength to do what seems impossible and believe that we are never alone on this journey of life. Since Thomas birth, she had feelings of foreboding regarding her daughter-in-laws ability to be a good mother, but tried to ignore them for the sake of her son. But when her daughter-in-law became more and more irresponsible and she saw the danger her grandson was in, she could no longer stand aside, thus beginning a battle to collect evidence of the harmful environment Thomas was in. It is a tale of family and love where angels are real and can speak to and protect those in need.
