

Reckless Instincts: Rude Awakening

Phoebe Axton and her mother had issues as she grew into her late teens. Her mother wanted her to become a world renowned super model, but Phoebe didnt care to live in her mothers dream, she wanted to live her life how she saw fit. Phoebe wanted to please her mother by making something of herself, but she also wanted to do something to make herself proud. While working for her father as a receptionist at his new car dealership, she met an older guy name Pisces. Pisces owned a business and offered Phoebe a job that she couldnt refuse. Although the offer seemed unreal, Phoebe, against her better judgment accepted the job, along with falling in love with Pisces. The relationship posed far too much for Phoebe, due to the constant jealousy and abuse from Pisces, she felt as though she was way in over her head but Phoebe refused to leave Pisces. The job had its challenges, but Phoebe with her head strong attitude wasnt backing down from it. In fact, Phoebe didnt back down from very many challenges. Until her reckless instincts landed her in a dangerous situation that could cost her the very breath she breathe.
