

We Find Em, We Fix Em! An Important Thriller About American Medicine

When Donald Longnecker, busy paper company executive, experiences what he believes are signs of a heart attack, he rushes to the hospital in search of a quick fix. What he gets is a rushed consultation and an unnecessary procedure that will cost him more than just millions. It will cost him his livelihood, well-being, his lover AND his marriage. A thriller based on research and a carefully imagined, real-life scenario, We Find Em, We Fix Em is an important medical thriller about the dangers of unnecessary cardiac procedures, and the risks they entail.
